SHAKER STEP STOOL WITH HANDLE**

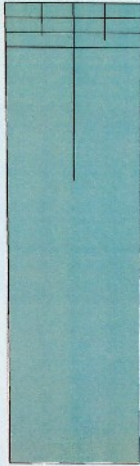

Section 2

Marking and Shaping the Front and Back

If you don't have a compass to draw the half circle, use a quart paint can. It is not important that it be exactly 2 1/2", but it is important that the front and back half circles match.

From top draw lines 1", 2" and 3"

From sides draw centerline at top
From each side draw a line at top 2 7/16"
